

Chlorella Algae Bio 90 g Doypack Superfoods Drasanvi

SKU: 032010029 EAN13: 8436044516092

Description

Chlorella is a unicellular form of algae. Even though it is small in size, it is full of nutritious properties. It is rich in proteins, which result in an excellent source of amino acids, and it contains many valuable vitamins (pantothenic acid, folic acid, biotin, vitamins B2 and B12) as well as minerals such as iron, zinc and phosphorus. Chlorella algae grows in clear fresh water and therefore is free from contamination. Once collected, the cell walls are broken to make the proteins, vitamins and minerals more accessible. Ideal for the preparation of juices and milkshakes. Recommended for athletes.

Ingredients

Organic Chlorella powder (*Chlorella vulgaris*)

Directions

Add a dessert tablespoon to your smoothies and shakes, juices, vegetable drinks, green sauces, vegetable cream or any recipe. Add it once the dish is tempered. 1 dessert tablespoon = around 4 grams

Presentation

Contains 90 g (3.17 oz.)

Warnings

Store in a cool, dry place.

Allergen free.

Additional Information

Organic certification

We meet the highest quality standards during the collection and processing of the Chlorella algae we use, which has led it to become a certified organic product.

Supports mental performance

Amongst other important properties, Chlorella algae also contain high levels of vitamin B5 (pantothenic acid), a vitamin that supports mental performance.

Protects against oxidative stress

Chlorella algae contains substantial amounts of important vitamins including vitamin B2 (Riboflavin). This vitamin plays an important role in protecting cells against oxidative stress.
