

Propolis Pure Extract Alcohol Free 50 ml Drasanvi

SKU: 032050013 EAN13: 8437006921251

Description

Propolis pure extract alcohol free is a food supplement based on Pure Propolis and Echinacea. We have used the highest quality propolis, which have been added as dry extract, therefore we can guarantee that it is titrated at 12% of galangin (bioflavonoid). We have added the aroma of forest fruits to this fantastic product to give it a pleasant taste. Propolis is a resinous mixture that bees made from resinous compounds of plants. Propolis is made up of resins, balsams, essential oils and other organic matter, in particular flavonoids such as quercetin and galangin. Propolis concentrated extract without alcohol comes in a convenient 50 ml bottle with a pipette, which allows you to measure your dose

easily and accurately.

Food supplement based on plants and propolis.

Food supplements should not be used as a substitute for a balanced diet. Do not exceed the expressly recommended daily dose. Keep out of the reach of younger children. Store in a cool, dry place.

Additional Information

Propolis of the highest quality

Propolis is a resinous mixture created by bees to keep their hives sterile. This ingredient contains many valuable properties, which depend on the quality of the propolis itself. Its quality depends on the source, the extraction process and its correct preservation. Drasanvi has used the highest quality of ingredients for its entire Propolis range, especially when it comes to the ingredient propolis itself.

- Un-waxed propolis, i.e. we have removed the wax to get a purer form, richer in active ingredients
- Standardised propolis, i.e. this guarantees the high and uniform quality of the active ingredients (including galangin). We can guarantee the quality of the product and the uniformity of each batch for its entire shelf life

Pure propolis free from additives

100% pure and free from additives, colourings and other substances.
