

# Propolis Pure Extract With Alcohol 50 ml Drasanvi

SKU: 032050014 EAN13: 8437006921268

## Description

Propolis pure extract is a food supplement based on pure propolis, extracted directly using alcohol. It does not contain preservatives or colourings, has 100% purity and comes from a source of the highest quality. Propolis is a resinous mixture that bees make from resinous compounds of plants. Propolis is made up of resins, balsams, essential oils and other organic matter, in particular flavonoids such as quercetin and galangin. Due to the fact that it comes in liquid form, this product is also for external use. It can be added to moisturizing cream, toothpaste or shampoo. Propolis pure extract comes in a convenient 50 ml bottle with a pipette, which allows you to measure your dose easily and accurately.

## Ingredients

---

Propolis *Hydroalcoholic propolis extract (60% Vol)* 3 ml

## Directions

---

Shake well before use. Take 1 ml (15 drops) three times a day, mixed with water, juice or infusions.

## Additional Information

---

### **Propolis of the highest quality**

Propolis is a resinous mixture created by bees to keep their hives sterile. This ingredient contains many valuable properties, which depend on the quality of the propolis itself. Its quality depends on the source, the extraction process and its correct preservation. Drasanvi has used the highest quality of ingredients for its entire Propolis range, especially when it comes to the ingredient propolis itself. • Un-

waxed propolis, i.e. we have removed the wax to get a purer form, richer in active ingredients ·  
Standardised propolis, i.e. this guarantees the high and uniform quality of the active ingredients (including galangin). We can guarantee the quality of the product and the uniformity of each batch for its entire shelf life.

### **Pure propolis free from additives**

100% pure and free from additives, colourings and other substances.
