

Propolkid Syrup 150 ml Drasanvi

SKU: 032050016 EAN13: 8437006921282

Description

Contributes to the normal functioning of the immune system. Propolkid is a food supplement created for children over 8 years old. It contains Propolis, Echinacea, Acerola and Dwarf Everlast. It also contains high levels of vitamin C from Acerola, which contributes to the normal functioning of the immune system. Acerola is a red fruit containing the highest amounts of vitamin C of any fruit. Propolkid has a pleasant strawberry flavour, making it delicious for children.

Ingredients

Water , Corn syrup , Sweetener (*Fructose*) , Honey 550,17 mg, Acerola dry extract (*Fruit*) (*Malpighia puniceifolia* L., 50% Vitamine C) 50,4 mg, Dwarf Everlast dry extract (*Helichrysum arenarium* (L) Moench, 1,5% Isoquercitin) 50,4 mg, Propolis dry extract (12% galangin) 29,97 mg, Flavour (*Strawberry flavour*) , Preservative (*Potassium sorbate*) , Echinacea dry extract (*Root*) (*Echinacea angustifolia* DC, 2% cichoric acid, 4% Echinoides) 10,08 mg, Acid (*Citric Acid*)

Presentation

Contains 150 ml (5.25 fl oz)

Warnings

Food supplements should not be used as a substitute for a balanced diet. Do not exceed the expressly recommended daily dose. Keep out of the reach of younger children. Store in a cool, dry place.

Additional Information

Propolis of the highest quality

Propolis is a resinous mixture created by bees to keep their hives sterile. This ingredient contains many valuable properties, which depend on the quality of the propolis itself. Its quality depends on the source, the extraction process and its correct preservation. Drasanvi has used the highest quality of ingredients for its entire Propolis range, especially when it comes to the ingredient propolis itself.

- Un-waxed propolis, i.e. we have removed the wax to get a purer form, richer in active ingredients.
- Standardised propolis, i.e. this guarantees the high and uniform quality of the active ingredients (including galangin). We can guarantee the quality of the product and the uniformity of each batch for its entire shelf life.

Natural source of vitamin C

Vitamin C has a number of properties, the most important of which is supporting a healthy immune system. The vitamin C used in Propelkid comes from dog rose. It is a plant that contains some of the highest levels of vitamin C.

Corn syrup

Excess sugars in foods are an increasing problem, and nowadays people try to reduce their intake of sugar and replace it with sucrose. Sucrose is a disaccharide made up of glucose and fructose. However, corn syrup contains less glucose, thereby reducing the ability to form sucrose.
