

Propolis Proporal 30 Chewable Tablets Drasanvi

SKU: 032050020 EAN13: 8437006921442

Description

Propolis Proporal is a food supplement that comes in tablet form that should be chewed or sucked orally. They contain Propolis, Liquorice, Mustard (known as the singer's plant), Acerola and Mullein. To this formulation we have added essential pine and oregano oils to give a pleasant and distinctive taste. These tablets are also rich in vitamin C, naturally sourced, which comes from Acerola. Acerola is a red fruit and contains the highest amount of vitamin C of any fruit.

Warnings

Food supplements should not be used as a substitute for a balanced diet. Do not exceed the expressly recommended daily dose. Keep out of the reach of younger children. Store in a cool, dry place.

Additional Information

Propolis of the highest quality

Propolis is a resinous mixture created by bees to keep their hives sterile. This ingredient contains many valuable properties, which depend on the quality of the propolis itself. Its quality depends on the source, the extraction process and its correct preservation. Drasanvi has used the highest quality of ingredients for its entire Propolis range, especially when it comes to the ingredient propolis itself.

- Un-waxed propolis, i.e. we have removed the wax to get a purer form, richer in active ingredients.
- Standardised propolis, i.e. this guarantees the high and uniform quality of the active ingredients (including galangin). We can guarantee the quality of the product and the uniformity of each batch for its entire shelf life.
