Presentation

contains 30 ml (1.05 fl oz).

Warnings

Food supplements should not be used as a substitute for a balanced diet. Do not exceed the expressly recommended daily dose. Keep out of the reach of younger children. Store in a cool, dry place.

Additional Information

The benefits of bioflavonoids

Bioflavonoids, known as vitamin P, are water-soluble molecules made up of a group of pigments that are often found in fruits and vegetables that contain vitamin C. Bioflavonoids include a number of components that work together—citrin, hesperidin, rutin, flavones, flavonals. Drasanvi's Promelo® is made with grapefruit seed extract (not with grapefruit juice), which is rich in bioflavonoids (50%). It is important to note that there are 10 times more bioflavonoids in the seeds and the white parts of the fruit than in its juice.
