

Promelo Concentrated 50 ml Drasanvi

SKU: 032050057 EAN13: 8436044511714

Description

Contributes to the normal functioning of the immune system. Promelo® concentrated is a food supplement that combines grapefruit seed extract and vitamin C, which help keep the immune system healthy. The combination of these two ingredients provides 14mg of bioflavonoids in just one dose. Due to the fact that it comes in liquid form, this product is also for external use. It can be added to moisturizing cream, toothpaste or shampoo. Promelo® concentrated comes in a convenient 50 ml bottle with a pipette, which allows you to measure your dose easily and accurately.

Ingredients

Glycerine , Water , Vitamin C (*Ascorbic acid*) 96 mg, Grapefruit seed dry extract (*Citrus grandis*, 50% *Bioflavonoids*) 27 mg, Preservative (*Potassium Sorbate*)

Directions

Take 30 drops (1 ml) three times a day mixed with water, juice or herbal tea. You can also mix 30 drops with moisturizing cream, toothpaste, shampoo and apply normally.

Presentation

Contains 50 ml (1.8 fl oz)

Warnings

Food supplements should not be used as a substitute for a balanced diet. Do not exceed the expressly recommended daily dose. Keep out of the reach of younger children. Store in a cool, dry place.

Additional Information

The benefits of bioflavonoids

Bioflavonoids, known as vitamin P, are water-soluble molecules made up of a group of pigments that are often found in fruits and vegetables that contain vitamin C. Bioflavonoids include a number of components that work together—citrin, hesperidin, rutin, flavones, flavonals. Drasanvi's Promelo[®] concentrated is made with grapefruit seed extract (not with grapefruit juice), which is rich in bioflavonoids (50%). It is important to note that there are 10 times more bioflavonoids in the seeds and the white parts of the fruit than in its juice.
