

Promelo Balsamic Syrup 250 ml Drasanvi

SKU: 032050060 EAN13: 8436044511752

Description

Contributes to the normal functioning of the immune system. Promelo® balsamic syrup is a food supplement which contains a large number of standardised vegetable extracts: grapefruit seeds and common marsh mallow extracts, Iceland moss and dwarf everlast. To these extracts we have added propolis and n-acetylcysteine as well as vitamins and minerals, such as vitamin C, zinc and copper, which help keep the immune system healthy. Promelo® balsamic syrup comes with a dosage cup, to help you take exactly the right amount.

Ingredients

Rice syrup , Glycerine , Water , Propolis dry extract (10% Galangin) 288 mg, Grapefruit seed dry extract (*Citrus x aurantium var. grandis*, 50% bioflavonoids) 192 mg, Common Marsh Mallow dry extract (*Althaea officinalis L.*, ratio 4:1) 180 mg, Vitamin C (Ascorbic acid) 180 mg, Iceland moss glycerin extract (*Cetraria islandica (L) Acharius*, ratio 4:1) 120 mg, Dwarf everlast dry extract (*Helichrysum arenarium (L) Moench*, Isoquercitna 1,5%) 120 mg, N-Acetylcysteine 60 mg, Preservative (*Potassium sorbate*) , Dwarf everlast dry extract (*Matricaria recutita L.*) 38,4 mg, Zinc gluconate (14,4% zinc) 36 mg, Copper gluconate (11,94% copper) 3,6 mg

Shake well before use. Take 15 ml twice daily with the dosage cup.

Presentation

Contains 250 ml (8 fl oz)

Warnings

Food supplements should not be used as a substitute for a balanced diet. Do not [Powered by Tiny](#) exceed the expressly recommended daily dose. Keep out of the reach of younger children. Store in a cool, dry place.

Additional Information

The benefits of bioflavonoids

Bioflavonoids, known as vitamin P, are water-soluble molecules made up of a group of pigments that are often found in fruits and vegetables that contain vitamin C. Bioflavonoids include a number of components that work together—citrin, hesperidin, rutin, flavones, flavonals. Drasanvi's Promelo® is made with grapefruit seed extract (not with grapefruit juice), which is rich in bioflavonoids (50%). It is important to note that there are 10 times more bioflavonoids in the seeds and the white parts of the fruit than in its juice.

Includes N-acetylcysteine

N-acetylcysteine is made from the amino acid cysteine, found in many protein rich foods. N-acetylcysteine is an active ingredient derived from cysteine, attached to the acetyl group (it is not found in foods in this form). N-acetylcysteine helps to break disulfide bonds in mucus polymers.
