Description

Contributes to reduce tiredness and fatigue. Vitalpur[®] Energy is a supplement whose main ingredient is royal jelly (1.000 mg), which is reinforced with minerals like iron. Iron plays an important role in reducing tiredness and fatigue. We have also added vitamin B3, vitamin B5, vitamin B1, vitamin B6 (helps maintain a normal energetic metabolism), and vitamin B2, as well as vegetable extracts such as ginseng, Siberian ginseng and guarana. Vitalpur[®] Energy does not contain any added sugars and instead uses the natural sweetener from the stevia plant.

Additional Information

Highest Quality Royal Jelly

The quantity of hydroxydecanoic acid (10-HDA) found in royal jelly determines its quality, as it conserves the jelly and maintains the properties of the jelly once it has been extracted. It has been established that good royal jelly should contain at least 3% of 10-HDA. Vitalpur[®] Energy includes in its

formulation a royal jelly that has minimum 4-5% of 10-HDA.

Stevia sweetener

Stevia is a plant rich in glucosides, and 300 times sweeter than sugar. The glucosides from this plant do not affect the levels of glucose in the blood.
