Warnings

Food supplement based on royal jelly and plants with sweetener.

Food supplements should not be used as a substitute for a balanced diet. Do not exceed the expressly recommended daily dose. Keep out of reach of smaller children. Store in a cool, dry place.

Additional Information

Highest Quality Royal Jelly

The quantity of hydroxydecanoic acid (10-HDA) found in royal jelly determines its quality, as it conserves the jelly and maintains the properties of the jelly once it has been extracted. It has been established that good royal jelly should contain at least 3% of 10-HDA. Vitalpur® Junior includes in its formulation a royal jelly that has minimum 4-5% of 10-HDA.
