

Collmar Vanilla 275 g Drasanvi

SKU: 032050098 EAN13: 8436044513084

Description

Due to its high levels of vitamin C this supplement helps maintain the normal production of collagen, which supports healthy cartilage, bones and skin.

Ingredients

Hydrolysed Marine Collagen (Contains fish) (Type I. Very low Molecular weight) 9.660 mg, Acerola Dry Extract (Malpighia punicifolia, 25% Vitamin C) 320 mg, Hyaluronic acid 10 mg, Flavour (Vanilla Flavour)

Directions

Take 10 g (2 dose scoops) a day diluted in liquid, divided into 1 or 2 doses. You may add sugar to taste. We recommend taking this product for at least 3 months.

Presentation

Contains 275 g (9.70 oz)

Warnings

Food supplements should not be used as a substitute for a balanced diet. Do not exceed the expressly recommended daily dose. Keep out of the reach of younger children. Store in a cool, dry place.

Additional Information

Marine collagen is rich in amino acids

The collagen we use comes from fish. A recent study (J Agric Food Chem 55(4) 1532-1535 (2007)) has proved that marine collagen is more easily assimilated by the body than other forms, such as collagen that comes from pigs parts. Collmar® contains a high proportion of glycine, proline and hydroxyproline (the most important amino acids in collagen) and other essential amino acids.

Hydrolysed

The collagen we use has go through a unique process in which it is broken down into tiny fragments,so that they can be easily absorbed by the body. This process has been made through enzymatic hydrolysis. In that case, we managed to break the collagen so it can be easily absorbed.

Enriched with hyaluronic acid

Collmar® contains hyaluronic acid, which is created during the bacterial fermentation of streptococcus zooepidemicus.

Contains vitamin C

The EFSA (European Food and Safety Authority) recommends the consumption of vitamin C, as it helps create collagen and in turn makes cartilage, bones and skin.

Free from terrestrial animals

All the ingredients we use (marine collagen and hyaluronic acid) do not come from terrestrial animals.
