Additional Information

Synergy of vitamins, minerals and plant extracts

V ocular by Drasanvi, is a food supplement that combines the synergy of vitamins, minerals, plant extracts and highly concentrated fish oil, valued in DHA and EPA.

Titrated plant extracts

Plant extracts are standardized, that is, extracts in which we ensure an adequate, uniform and constant amount of active ingredients. But it is not only this advantage, but the use of these extracts allows reducing the daily dose, without the need to consume a large number of capsules.

- *Vaccinium macrocarpon* cranberry extract with a contribution of proanthocyanidins (50%), which represents 10 mg of proanthocyanidin.

Carotenoids

V Ocular by Drasanvi, incorporates ingredients known as carotenoids: lutein, zeaxanthin, astaxanthin, all of them from natural sources. Carotenoids are organic substances present in various plant species and are responsible for the different colors of the plant world.
