

Collmar Hair Cherry 350 g Drasanvi

SKU: 032050175 Código PL / NUT: NUT/PL 1768/106 C.N: C.N. 177231.2 EAN13: 8436044514920

Description

Collmar Hair is a dietary supplement that supports hair health through the synergistic action of its two principal ingredients: Keratin and Enzymatically Hydrolysed Marine Collagen. These two proteins are naturally found in hair. Furthermore, this supplement contains Biotin and Zinc, which also contribute to hair growth.

Ingredients

Hydrolysed Marine Collagen (Contains fish) (Type I, very low molecular weight) 5.000 mg, Bulking

agent (*Maltodextrin*) , Keratin 250 mg, Flavour (*Cherry Flavour*) , Zinc Gluconate (14,36% Zinc) 75 mg, Bamboo Dry Extract (*Stem*) (*Bambousa arundinacea (Retz.) Willd., Silicium 75%*) 40 mg, Sweetener (*Sucralose*) , Sodium Selenite (46% Selenium) 0,12 mg, Biotin (*D-biotin*) 0,1 mg

Directions

Mix 10 g (2 doser scoops) with water or juice. We recommend taking this supplement for a minimum period of three (3) months.

Presentation

Contains 350 g (12.34 oz)

Warnings

Food supplement based on collagen, keratin, minerals, plants and biotin with sweetener. With sweetener. Food supplements should not be used as a substitute for a balanced diet. Do not exceed the expressly recommended daily dose. Keep out of the reach of younger children. Store in a cool, dry place. It contains fish.

Additional Information

Marine Collagen is rich on Aminoacids

Collagen used in Collmar comes from fish. A recent research (*J Agric Food Chem* 55(4) 1532-1535 (2007)) has proved that Marine Collagen is more easily absorbed than collagen that comes from other sources, such as collagen from pig parts. Collmar has a high percentage of Glycin, Prolin and Hydrosiprolin (the most important aminoacids in collagen) and other essential aminoacids.

Enzymatically Hydrolysed

The collagen we use has undergone a unique process in which it is broken down into tiny fragments, so that they can be easily absorbed by the body. This process has been made through enzymatic hydrolysis. In this way we managed to break down the collagen in specific places making it easily absorbed

Standardized extracts

Another important advantage in our formula is the use of titrated extracts. That means that the plants that we use always give a known and constant amount of organic Silicium. In our case, Silicium is obtain from Bamboo dry extrat, wity 75% in Silicium, which means that 40 mg of Extract provide 30 mg of Silicium.

Nutrition Facts

Per daily dose (10 g)

Ingredient	Percentage	Quantity
Biotin	200%	0,1 mg
Zinc	108%	10,8 mg
Selenium	100%	55 µg
