

# White Hawthorn Glycerinate 50 ml Botanical Bio Drasanvi

SKU: 032050193 EAN13: 8436044515095

## Description

White Hawthorn is a deciduous tree of the Rose (Rosaceae) family. It can be found growing wild along forest edges in Europe, North Africa, North America and West Asia. White Hawthorn is rich in Vitexin, Phytosterols, Linoleic Acid, Calcium, Chromium, Phosphorous, Selenium, Sodium, Zinc, Vitamin C, Vitamin B3, Vitamin B2, Choline, Niacin and Beta-carotenes. We have selected a White Hawthorn Glycerinate Extract with a 1:3 ratio. This means that for each gram of Extract we have used 3 grams of dried plant. Our White Hawthorn Glycerinate Extract is titrated in Vitexin 5 mg/ml, providing 15 mg per day.

## Ingredients

---

White Hawthorn Bio Glycerinate Extract\* (*Flowering tops*) (*Crataegus sp. Ratio 1:3 Vitexin 5 mg/ ml*) 3 ml

## Directions

---

Take 1 ml (approximately 28 drops) diluted in a glass of water three times a day, preferably before main meals.

## Presentation

---

Contains 50 ml (1.75 fl oz)

## Warnings

---

Food supplement based on plants.

Food supplements should not be used as a substitute for a balanced diet. Do not exceed the expressly recommended daily dose. Keep out of the reach of little kids. Store in a cool, dry place. Due to its Bio nature, therefore it does not contain preservatives, we recommend once opened, close the container tightly, store it in the fridge and consume within a month.

## Additional Information

---

## **Standardized Extracts**

One of the primary advantages of our formulation is the use of standardized extracts. This means that the active plant ingredients that provide medicinal properties are always the same. In the case of White Hawthorn, its titration in Vitexin ensures a constant daily dose of 15mg. In addition, we have selected a White Hawthorn extract with a ratio 1:3. This means that for each gram of extract we have used 3g of plant.

## **Glycerinate Extracts**

The advantages of vegetable glycerinate based extracts with respect to other solvents like water or alcohol are as follows:

- The active plant ingredients are not affected.
- Vegetable glycerin promotes the homogeneous distribution of active ingredients throughout the product.
- Vegetable glycerin delays oxidation; therefore preservatives are not needed.
- Vegetable glycerin is the only solvent that preserves the natural flavor derived from the plant.
- Glycerin has a low glycemic index and therefore breaks down sugars slowly. This way, we avoid blood sugar spikes.
- Vegetable glycerin is a natural humectant that absorbs moisture. This property facilitates cellular dehydration without damaging the overall plant protein structures.

## **Organic Certification**

Our White Hawthorn Extract is certified organic. This certification ensures that our crops are grown, harvested and processed under the most strict certification standards. The absence of chemical additives preserves the properties of the native plant.

## **High Quality Bottle**

Drasanvi has chosen to use a special glass bottle. This is an opaque bottle, characterized by preventing the passage of visible light spectrum. This protects the products from oxidation, so our glycerinated extracts are kept in perfect condition for longer periods of time.
