

Collmar Cao 300 g Drasanvi

SKU: 032050278 EAN13: 8436044515873

Description

Collmar Cao is a food supplement made with Organic Defatted Cocoa, Hydrolysed Marine Collagen, DHA, Magnesium, Calcium, Vitamins C, D, B1, B5, B6 and B12 and minerals such as Iron, Magnesium and Zinc. The combination of all these ingredients makes Collmar Cao a very complete food supplement to take with your breakfast. **Protein** contributes to the maintenance of muscle mass.

Vitamin C contributes to normal Collagen formation for the normal function of cartilage, bones and skin.

Vitamin B2 contributes to normal Iron metabolism. **Vitamin B6** contributes to normal protein and glycogen metabolism. **Vitamin D** contributes to normal absorption/utilization of Calcium and

Phosphorous. **Magnesium and Vitamin B12** contribute to the reduction of tiredness and fatigue.

Calcium is needed for the maintenance of normal bones. **Zinc** contributes to normal protein synthesis

Ingredients

Pure Organic Defatted Cocoa* 6.570 mg, **Hydrolysed Marine Collagen** (Contains fish) (Type 1, very low molecular weight) 2.000 mg, Magnesium Citrate (Magnesium 15.5%) 726 mg, Calcium Citrate (Calcium 15.5%) 720 mg, Acerola Dry Extract (Malpighia glabra, Vitamin C 25%) 320 mg, Microencapsulated DHA (Richness 10%) 80 mg, Ferrous Fumarate (Iron 32%) 44 mg, Zinc Gluconate (Zinc 14%) 35 mg, Calcium D-Pantothenate (Vitamin B5) 6 mg, Cyanocobalamin (Vitamin B12) 2,5 mg, Cholecalciferol (Vitamin D3) 2 mg, Pyroxin Hydrochloride (Vitamin B6) 1,4 mg, Thiamine Hydrochloride (Vitamin B1) 1,1 mg

Directions

Dissolve 11 g, 2 dosage cups, with hot or cold milk or vegetable milk for breakfast. Sweeten if desired.

Presentation

Contains 300 g (10.58 oz).

Warnings

Food supplements should not be used as a substitute for a balanced diet. Do not exceed the expressly recommended daily dose. Keep out of the reach of younger children. Store in a cool, dry place.

Additional Information

Marine Collagen and the Richness of Amino Acids

We use Collagen from fish. A recent study (J Agric Food Chem 55(4) 1532-1535 (2007)) has shown that Marine Collagen is more easily assimilated by the body than Collagen from other sources, like pig Collagen. Collmar® is rich in Glycine, Proline and Hydroxyproline, the most abundant amino acids in collagen, and essential amino acids.

Enzymatically Hydrolysed

Our Collagen undergoes a unique process in which it is broken down into smaller molecules called Peptides, which are more easily absorbed into the body. This process is called enzymatic hydrolysis and favors the cleavage of Collagen in specific sites, facilitating its absorption into the body.

Cocoa from Organic Agriculture

We use a high quality defatted and organically grown Cocoa.

Abundant in Vitamins and Minerals

Collmar Cao is rich in Vitamins C, D, B1, B5, B6 and B12; and Minerals such as Iron, Magnesium and Zinc. It is therefore a highly recommended dietary supplement to get you through the day.

Vitamin C

The European Food Safety Authority (EFSA) recommends taking Vitamin C because it contributes to Collagen formation for the normal function of cartilage, bones and skin. Drasanvi has chosen the Acerola fruit as a natural source of Vitamin C, due to its high content in this vitamin.

Nutrition Facts

Per daily dose (11 g)

Ingredient	Percentage	Quantity
Calcium	19%	151,2 mg
Magnesium	30%	112,5 mg
Zinc	50%	5 mg
