

Alkaline Life 500 ml B-Life Drasanvi

SKU: 032050341 EAN13: 8436044517990

Description

Our body is formed by numerous body structures, surrounded by aqueous solutions. These solutions are loaded with electrolytes, giving each one a **different pH level** (depending on the degree of acidity or basicity). Many pH?s are intrinsic, but others are dependent on external factors, such as food. For example, green leafy vegetables and vegetables are alkaline, as opposed to meat or sugar, which are acidic. A balanced diet rich in vegetables can help maintain the **acid-base balance** of our body.

Additional Information

Concentrated Daily Dose

The intake of fruits and vegetables as part of an overall diet may not be enough. Our Dry Extracts are highly concentrated and standardized in active ingredients that support the body's detoxification.

Pleasant Taste

Despite the mix of vegetable extracts, our galenic formulation provides a very pleasant taste and can be

taken alone.

With Alkalinizing Minerals

Many vegetables are alkalinizing *per se*. In addition, our formula is enriched with alkalinizing minerals such as Magnesium, Phosphorous and Potassium.
