

# Omega 3 1000 mg 90 Softgels Sport Live Drasanvi

SKU: 032050622 EAN13: 8436578544585

## Description

Omega 3 is a polyunsaturated fatty acid, a substance that the body cannot synthesise and needs to be incorporated in the diet. It is present in fish (generally in oily fish) and in some vegetable seeds such as flax, chia or walnuts. Eicosapentaenoic acid (EPA) and Docosahexaenoic acid (DHA) are particularly important. Our softgels provide 180 mg of EPA and 120 mg of DHA per pearl. Thanks to their EPA and DHA content, Drasanvi Omega 3 pearls **contribute to the proper functioning of the heart.**

## Ingredients

---

**Fish oil** (*Contains fish*) (EPA 18% and DHA 12%) 1.000 mg, Coating Agent (*Gelatine and Glycerine*) , Vitamin E Natural (*As D-alpha tocopherol*) 20 mg

## Warnings

---

Food supplement based on fish oil. Food supplements should not be used as a substitute for a balanced diet and a healthy lifestyle. Do not exceed the recommended daily dose. Keep out of the reach of children. Store in a cool, dry place. Contains fish

## Additional Information

---

### Standardised oils

One of the most important advantages of our formulation is the use of standardised extracts. In the case of Drasanvi's Omega 3 soft gels, they are titrated in Eicosapentaenoic Acid (EPA) and Docosahexaenoic Acid (DHA), providing 180 mg and 120 mg respectively.

### Concentrated and easy-to-take dosage

The use of concentrated and titrated oils allows us to obtain the same dose in just one bead.

### Allergen-free

Our Omega 3 soft gels are manufactured so that there is no contamination with any of the most common allergens, with the exception of fish.
