Additional Information

Lactoferrin 100 mg per daily dose

Quality of lactic ferments

The lactic ferments added in Immunol capsules belong to a proprietary blend consisting of 9 different strains: *Bifidobacterium lactis* from two selected strains, *Enterococcus faecium*, *Lactobacillus acidophilus*, *Lactobacillus paracasei*, *Lactobacillus plantarum* from two selected strains, *Lactobacillus salivari*. These ferments are wrapped in a matrix of fructooligosaccharides that allow their survival over time. This characteristic allows to maintain constant the level of lactic ferments throughout the entire useful life of the product.
