Bilayer Melatonin 60 Tablets Drasanvi

SKU: 032050695 **EAN13:** 8436578548033

Description

The quality and hygiene of sleep are essential for our day to day. For this reason, a restful sleep helps to improve our vitality and quality of life.

Bilayer Melatonin is a product designed to fall asleep and promote relaxation naturally thanks to its double effect, based on different speeds of action. The blue layer contributes to falling asleep more quickly due to its **melatonin** and **tryptophan** content. And, on the other hand, the brown layer makes the action of **valerian** and **passionflower** slowly noticeable during the resting process.
