Whey Protein with Double Chocolate flavour is a food supplement based on high purity proteins. This protein source comes from **whey concentrate** and the quality of our protein allows us to obtain a product with a high protein concentration (close to 80%), **low in carbohydrates and fats**. Its high purity provides a large amount of **branched amino acids**, naturally present in the protein, as well as other essential amino acids and minerals such as calcium and phosphorus, in order to improve the quality of the product, we have added amino acids such as **Glutamine and Leucine**.
