

Collmar Essentials Hydration 60 Tablets Drasanvi

SKU: 032057436 EAN13: 8436601105387

Description

Collmar Hydrated Skin combines Enzymatically Hydrolysed Marine Collagen, Hyaluronic Acid, Vitamin B3 and Wheat Ceramides for skin care. Low molecular weight collagen is extracted from fish sources and improves absorption. Hyaluronic Acid provides hydration, while Vitamin B3 promotes even skin. Wheat Ceramides strengthen the skin barrier. This product is designed to support the health and appearance of the skin from a nutritional approach.

Ingredients

Enzymatically Hydrolysed Marine Collagen (CCONTAINS FISH Type I, very low molecular weight) 1000 mg, Bulking agent (*Microcrystalline cellulose*) , Hyaluronic acid 200 mg, Vitamin B3 (*Nicotinamide*) 16 mg, Bulking agent (*Fatty acid magnesium salt*) , Wheat ceramides (*Seed*) (*Triticum aestivum*) 5 mg

Directions

Take 2 tablets a day accompanied by a glass of water, before breakfast.

Recommended duration: 3 months

Presentation

Contains 60 tablets of 900 mg. Total weight 54 g (1.9 oz)

Warnings

Food supplement based on hydrolyzed marine collagen, hyaluronic acid, vitamin B3 and ceramides.

Food supplements should not be used as a substitute for a varied and balanced diet and a healthy lifestyle. Do not exceed the expressly recommended daily dose. Keep out of the reach of little kids. Store in a cool, dry place. Contains FISH.

Additional Information

As we move through life, it is crucial to take care of our body's needs. Our unique formula is a powerful combination that stands out for including Wheat Ceramides, a star ingredient. These ceramides play an essential role in creating a barrier on the skin that acts as a protective shield, preventing moisture loss and helping to keep skin healthy and radiant. Combined with Enzymatically Hydrolyzed Marine Collagen, Hyaluronic Acid and Vitamin B3, we offer a product that promotes optimal general well-being

and comprehensive care of your skin.

Wheat Germ Ceramides (gluten free)

They contain wheat germ ceramides, which are carefully obtained and treated to be gluten-free. These ceramides play an essential role in creating a protective barrier on the skin to maintain hydration.

Enriched with Hyaluronic Acid

Collmar® is enriched with Hyaluronic Acid obtained through bacterial fermentation of *Streptococcus zooepidemicus*.

With Vitamin B3

Niacin contributes to maintaining normal skin conditions.

Marine Collagen and the Richness of Amino Acids

The Collagen used comes from fish and has been shown to be more easily assimilated than other sources of Collagen, such as pork, according to a recent study (J Agric Food Chem 55(4) 1532-1535 (2007)). Collmar® contains a high percentage of Glycine, Proline and Hydroxyproline, the major amino acids of collagen, as well as essential amino acids.

Enzymatically Hydrolyzed

Collmar® Marine Collagen has been subjected to a unique enzymatic hydrolysis process that fragments Collagen into smaller molecules, known as peptides, to facilitate its assimilation by the body.

Free of Terrestrial Animals

All ingredients used, such as Marine Collagen and Hyaluronic Acid, come from sources that do not involve terrestrial animals.

No sugar, no fat and no cholesterol.
