Store in a cool, dry place.

Additional Information

The roll-on is convenient to use, helping you to apply it quickly, cleanly and accurately. This method of extracting the oil helps keep the properties of the oil intact. We have sourced the plant used to create the oil from Australia, which is where the best quality plants grow. It is packaged in an azure blue bottle, which preserves all its properties by preventing oxidation of the oil. The source of the plant, the extraction process and the way it is preserved all ensure that this tea tree oil is of an exceptional quality. It surpasses the quality for tea tree oil set out by the health authorities and by the International Standards Agency. We guarantee that this product contains at least 60% terpenes.
