

Rosehip Oil Ecocert BIO 50 ml Drasanvi

SKU: 032060632 EAN13: 8436044510205

Description

The biological oil of rosehip contains 95% of unsaturated fatty acids, which stimulate the natural regeneration of the skin. The daily application of this oil provides the necessary nutrients for a young and healthy skin.

- **Hydrate the skin:** Formulated to create a protective layer and it helps to retain water molecules.
- **Nourish the skin:** by unsaturated fatty acids, which provide the necessary amount of nutrients that the skin needs.
- **Reduce signs of ageing** thanks to the regenerative power of linoleic and linolenic acids, which

are present in its composition and take an active part in the synthesis of collagen.

INCI

Rosa Mosqueta oil*, tocopheryl acetate*Ingredients from organic farming. Its 99,7% has natural origin. The 100% of the ingredients is obtained from Organic Farming. COSMOS ORGANIC certificate by Ecocert Greenlife following the COSMOS standard available in <http://COSMOS.ecocert.com>

Directions

The biological oil of musk rose has many uses and applications, some of those are:

- Spread gently on your clean skin until its complete absorption.
- Add it to the shower routine
- Extend in your face like a make-up base
- Enrich your moisturizing cream: Add 10 drops of oil for every 30 grams of cream, and spread it on the part of your face that you prefer
- Can be applied on injuries that are in recovery phase
- Hair care: Apply directly in the roots of your scalp and gently massage. After that, wrap a towel around your head for 2-3 hours.

Avoid direct contact with eyes, open injuries and mucous membranes. It could not be applied to children younger than three years of age.
