

# Xplendor Shampoo 300 ml Drasanvi

SKU: 032060652 EAN13: 8436578544677

## Description

Our Xplendor Shampoo is a shampoo enriched with plant extracts that strengthens the hair fiber from root to tip.

Among its active ingredients are an innovative epigenetic hair loss system, based on turmeric peptides that works by reactivating the root of the fiber, thus helping to increase hair density.

This asset is known as Capilia Longa, a plant peptide obtained from the turmeric rhizome. It acts on the hair bulb, changes the anagen phase (hair growth) and reduces the catagen phase (hair loss).
