Cosmetic Table

Component	Action	Effect
Biotin	It constitutes an essential vitamin in hair growth and health. A lack of it is associated with alopecia processes.	They help to strengthen the hair root, strengthening it and facilitating its growth.
Aloe Vera	Penetrates easily by opening the pores, facilitating access to beneficial substances, and also achieves a deep cleaning of hair impurities.	Facilitates the nutrition and regeneration of the hair. Eliminates impurities, facilitating hair oxygenation.
Panthenol (Vit. B5)	Vitamin B5 is essential for the scalp to incorporate copper at the height of the hair follicle. Copper is essential to prevent breakage of hair and brittle hair.	The use of vitamin B5 contributes to having strong and healthy hair.
Genecare	Penetrates into the scalp joining the damaged areas. By attaching to the hair cuticle, it achieves a smooth surface avoiding frizz and damage. Osmoprotection. Reduces irritation of the epidermis.	Provides stronger, healthier looking hair.

Algae Cystoseida
compressa

Made up of a seaweed covered with a matrix.
