Directions

Wet your hair very well. Glide the shampoo bar across the scalp, in the direction of growth. Gently massage. Rinse with plenty of water. Repeat the process.

Leave the shampoo bar in the open air to dry.

Presentation

Shampoo bar of 80 g

Cosmetic Table

Component	Action	Effect
Shea butter	Rich in palmitic, oleic and linoleic acids, tocopherols and catechins that are capable of absorbing UV radiation	Protects hair against external agents and high temperatures
Bentonite	It is a clay derived from volcanic ash, which provides volume and helps absorb fat	Helps deep clean the scalp, moisturizing and providing softness
Illite	Also known as red clay, rich in numerous minerals that help restore the natural moisture of the hair, leaving it more voluminous	It has an important detoxifying effect, helping to eliminate fats and toxins in depth

Lactic acid	Regulates the pH of the scalp	Reduces the effect of fat and provides a refreshing effect
Kaolin	Facilitates hair cleaning without the need to add toxic substances	Benefits dry and brittle hair by cleaning it thoroughly
Montmorillonite	Also known as green clay, it balances the amount of fat in the hair	Helps control the fat generated by the scalp.

Warnings

Keep out of reach of children. Do not eat. In case of contact with eyes, rinse immediately with plenty of water.
