Directions

Wet your hair very well. Glide the shampoo bar across the scalp, in the direction of growth. Gently massage. Rinse with plenty of water. Repeat the process.

Leave the shampoo bar in the open air to dry.

Presentation

Shampoo bar of 80 g

Cosmetic Table

Component	Action	Effect
Shea butter	Rich in palmitic, oleic and linoleic acids, tocopherols and catechins that are capable of absorbing UV radiation	Hidrata y protege al cabello frente a los agentes externos y las altas temperaturas, por lo que es muy aconsejable en cabellos rizados los cuales tienden a ser más secos.
Coconut oil	It has 90% saturated fatty acids in addition to B vitamins and numerous minerals.	Allows deep hydration, helping to recover your natural curl
Bentonite	Also known as red clay, rich in numerous minerals that help restore the natural moisture of the hair, leaving it more voluminous.	Eliminates the frizzy effect, improving the definition of the curl

Lactic acid	Repairs the hair, restoring the existing ionic bonds between the hair cells.	Improves the appearance of the hair, even repairs damaged ends.
Apricot oil	Strengthens the natural shine of the hair.	Provides luminosity to the hair

Warnings

Keep out of reach of children. Do not eat. In case of contact with eyes rinse immediately with plenty of water.
