

# Organic Calophyllum Vegetable Oil ECOCERT Drasanvi

SKU: 032060775 C.N: 206804.9 EAN13: 8436601100467

## Description

Calophyllum is a tree cultivated in different tropical regions of the world, such as Madagascar. From its fruit, a vegetable oil known for its multiple properties is obtained. It is especially useful to help regenerate the skin and improve circulation. For this reason, it is used in many cosmetic combinations.

Vitaroms Calophyllum vegetable oil is obtained by first cold pressing the ripe seeds of Calophyllum inophyllum. This ensures that all its components remain intact, thus providing great benefits to the body. It contains monounsaturated fatty acids (Omega 9), polyunsaturated fatty acids (Omega 6), as well as saturated fatty acids and numerous unsaponifiable lipids. Other components, such as calophilic

acid and infophilin, promote healing and circulation.

## INCI

---

Ingredients: Calophyllum inophyllum oil\*, tocopherol. \*Ingredientes procedentes de la Agricultura Ecológica. \*El 99.7% del total de los ingredientes procede de la Agricultura Ecológica. \*100% del total es de origen natural.
