

CBD Facial Serum 30 ml Drasanvi

SKU: 032060811 EAN13: 8436601101433

Description

Our Drasanvi CBD serum provides active ingredients that nourish and repair the most sensitive skin. Its formula incorporates CBD, stabilized vitamin C, sacha inchi oil and betaine that provide our skin with calming, moisturizing effects and restores mature skin.

CBD is an active ingredient known for its calming and relaxing properties. This active ingredient, together with the properties of the serum, a powerful concentration of active ingredients and its ability to penetrate the deepest layers of the skin, make it essential in our beauty routines.

Presentation

Contains 30 ml (1.01 fl oz)

Cosmetic Table

Components	Action	Effect
Cannabidiol	It acts as a topical soothing on sensitive skin. Helps control sebum production. Protective action against environmental factors.	Calms and relaxes sensitive skin, helping to reduce the symptoms of dry skin.
Betaine	Increases water retention by cells to maintain cell hydration.	Highly moisturizing effect, also helps reduce skin irritation
Glycerin	It crosses deep barriers in the skin, where it absorbs and retains water and maintains a good level of hydration.	Moisturizes, softens and soothes the skin, improves skin condition.

Sacha inchi seed oil	Vegetable oil obtained from a Peruvian plant, which has benefits on dry, irritated skin and keratinization	Provides soothing properties to damaged and punished skin
Ascorbyl glycosides	Water-soluble derivative of Vitamin C, which acts as a powerful antioxidant, helping to counteract the negative effects of free radicals. This way of applying Vitamin C penetrates into the deepest layers of the skin. It also enhances the production of collagen.	Improves the appearance of the skin, restoring shine and promoting collagen production, repairing damaged skin.
