Description

ECOSANA's Wholegrain Rye Flour Bio is obtained from the grinding of whole grains of rye, following the criteria of **organic production**, so that its cultivation and preparation has been respectful with the environment. The result is a high quality flour, with the characteristic flavour, texture and smell of rye, with more **fibre** content, which will help us improve our digestion, and a greater contribution of minerals, by preserving the rind. Thanks to its bread-making properties, **ECOSANA's Wholegrain Rye Flour Bio** is perfect for making doughs, breads, cakes, cookies... and can be used alone or mixed with other flours.
