ECOSANA's Bio Spelt Flakes are obtained exclusively from 100% spelt grain from **organic farming**, respecting the natural cycles of plants and without the use of genetically modified organisms, pesticides, pesticides or chemicals of any kind. Contributing in this way with the care of the Environment. Spelt is a cereal of great interest, thanks to its **high quality protein** content, as it has high amounts of lysine and also tryptophan, an amino acid that makes your body secrete serotonin and relax. In addition, it is a great source of minerals and vitamins, especially those included in groups B and E, and an ideal way to consume **complex, slow-absorbing carbohydrates and fibre**. Perfect for a healthy breakfast. Take them alone or mixed with other cereals soaked in the liquid of your choice.
