

Light Brown Cane Sugar Extralight Bio 500 g Ecosana

SKU: 467010399 EAN13: 8436012947637

Description

Cane sugar is obtained from unprocessed or unrefined sugar cane juice, from organic crops, through mechanical processes that respect the environment. The sugar cane juice is evaporated with heat treatment to eliminate moisture, generating a thick molasses from which the different types of sugars are obtained. After the sugar is crystallized, it is centrifuged to get granulated sugar. Depending on the centrifugation speed, the sugar takes on a more or less light colour. This semi-white sugar is whiter than our usual cane sugar for this reason. It does not undergo chemical bleaching. You can use it to sweeten any drink, yogurt, smoothie or in your favorite pastry recipes.

Ingredients

100% Light Brown Cane Sugar extralight*

*From Organic Farming.

Directions

Use at your convenience

Presentation

Contains 500 g

Warnings

Store in a cool, dry place.

May contain traces of **soya, sesame and nuts**.
